Event Idea

1. Hackathon:

    We can Organize A hackathon!

    We can give them ideas to work on, like helping nature or fixing problems in our college. This way, they can use what they know to make something helpful and awesome!

2. Robotics Competition:

    Host a robotics competition where participants can build and program robots to perform specific tasks or compete in challenges.

3. App Development Challenge:

    We Can Challenge students to develop mobile apps addressing specific problems related to society or apps making small tasks convenient.

4. Cyber Security Challenge:

    Develop a cybersecurity challenge that tests students' ability to identify vulnerabilities, secure systems, or solve simulated cyber threats.

5. 3D Printing Workshops:

    Introduce workshops on emerging technologies like 3D printing.

VISION

The work involves providing innovative solutions to various problems by developing them in our technical labs.A vision for INNOVAC'24 could be to create a space where students explore, learn, and apply their tech skills in fun and creative ways. It's about bringing together curious minds to share knowledge, solve problems, and build innovative solutions. The goal is to inspire a passion for technology, encourage collaboration, and showcase the endless possibilities in the tech world.

VENUE

Computer Application Department

BUDGET

We can first check out the club fund and if needed , we can have entry passes with nominal fees.

FIELDS FOR BUDGET:

Venue: Allocate funds for renting spaces like auditoriums, classrooms, or halls for workshops and presentations.

Equipment: Include costs for renting or purchasing tech equipment like projectors, screens, sound systems, and computers.

Marketing and Promotion: Set aside funds for designing posters, flyers, online ads, and promotional materials. Consider any costs associated with social media ads or collaborations with local media.

Refreshments: Plan for snacks, beverages, or meals if the event spans several hours or days. This might include catering or buying refreshments.

Prizes : If you plan contests or giveaways, allocate a budget for prizes or promotional items like T-shirts, stickers, or tech gadgets.

PEOPLE NEEDED

All Club Members will be required as INNOVAC is a responsibility of the whole club & if needed friends can provide a helping hand.

We will also coordinate with staff advisor for their precious time .

PUBLICITY

Social Media:

Use Instagram, Facebook, Twitter, and LinkedIn to share fun stuff about the event. Make short posts and use a special name for the event that everyone can use online.

Ask Clubs for Help:

 Talk to clubs that like tech stuff. They can tell their friends about the event.

Make Posters For Messes

 Create cool posters and papers with the event info and put them where lots of people go, like eating places or study spots.

Websites-
Make a special page on the college website for the event. Keep it updated with all the important stuff.
